Steers: 8.00-15.00, Hefers: 9.00-12.25, Calves: 5.00-13.75, Cows: 8.00-10.75.  
**Compared to Last Week:**  
Steers 50 lower, Hefers, steady, Calves 50 to 1.00 lower, Cows, scarce.

## BELLE GLADE BUYERS GUIDE

By B. G.  
Spring is "bustin' out all over" Daddy Dick's Children's Shop. There are frothy Easter bonnets galore, and a large stock of Kate Greenaway dresses for the young miss — sizes 6 mos. to 14 years. For the young man, there are smart school suits, and new dickie sport shirts. Did you know that Ivy League styling is available to keep boys on top? The up-to-date infant can now boast diaper pants with belted backs and shirts with button-down collars. Cuts as can be.  
With spring on the way, summer can't be far behind, and that will mean more watering to keep lawns in top shape. The Home Hardware Store has a big supply of the finest quality woodsy, vinyl plastic hoses. Mr. Halbrook also showed me something that intrigued me: the Master Hasplock. This is a foolproof, rustproof, heavy type lock ingeniously designed so the padlock is permanently attached and can't be lost or misplaced. Ideal for tool sheds, garages, tool lockers, etc.  
Harold Zumpf, manager of Southern Distributing Co., the Sealstead dealer for the Glades, is all steamed up about beautifying the Glades. He is in the midst of a campaign to "keep (Continued on Page 14)

## Two Are Caught In Theft Of Safe

Lerman Johnson who admitted breaking and entering Clyde Doolittle's Brokerage office in the packing house district early Sunday morning and removing a safe, was lodged in county jail after being taken into custody late Sunday afternoon, according to city investigator, Louis Lowery.  
Johnson and a youth entered thru Larry Nash's office, kicked a hole in the bathroom and made way into Doolittle's rolling the safe out to the back of the packing house and taking it to the rock pit. After pouncing the safe door for an hour, it was found to be unlocked, the safe contained only 30 cents.

## Florida's Cattle Scientists Hold Field Day At Experiment Station

Cattlemen will have a field day on March 21st at the Everglades Experiment Station in heading up local state in heading up local scientists from other parts of the state and a number of local scientists in telling the cattlemen the results of specific experiments.  
The Cattle Auction Market will be hosts to visitors at a luncheon so that the 9:30 meeting may go into the late afternoon with comfort to all.  
(Continued on page Eight)

## Let's Be Ready!

Interest in Belle Glade as a possible location for Pratt-Whitely employees is strongly indicated by letters received this week at the Chamber of Commerce office from Texas and Connecticut.  
Secretary Edwin Young states that both letters from employees, who will transfer to the Palm Beach County plant, are seeking information on our city as a home location.

## JOB AND WORKER

J. W. Mosley, Jr., Representative Florida State Employment Service  
**DOWN TO EARTH** — The economy of the Glades is directly tied to the tremendous agricultural activities of this area. The "Black Gold" is not a pipe dream. Littered about agriculture, there would be very little activity here, few, if any, professional people, a handful of stores and shops and service establishments, a small number of clerks, and a bare trickle of customers. Although there are many who have lived here longer than I have, I (arrived in 1938) I've witnessed the development of the Glades from the few scattered houses, stores, and farms around the edge of the lake, into the thriving year-around communities and unbelievable (Continued on Page 14)

## District Tourney Begins Wednesday

Plans are complete for the beginning of the District Class A Basketball Tournament to begin here Wednesday, Feb. 27 at 3:30 p. m. This tournament will probably be the biggest athletic event ever staged in Belle Glade and this year the competition has been downright fierce in basketball. Key West expects to see as good a brand of high school ball as may be found in the state.  
The Seacrest Hawks will reign as pre-tournament favorites with the Trojans of Lake Worth a close second. Key West and Pompano Beach and South Dade will also present strong teams.  
Stuart and Belle Glade will meet at 3:30 Wednesday to start the first round. At 7 p. m. the second round, Key West and Pompano Beach and South Dade will clash at 8:30 p. m.  
There will be two games Thursday afternoon at 2:00 and 3:30 o'clock followed by two games Thursday night. Two games will wind up semi-finals Friday night, March 1 and the single game final will be staged at 8 p. m. Saturday.  
The Rams chances for the tournament appear to be slim. Their first game against Stuart started a toss up, both teams having beaten the other once. However, if the Rams succeed in getting by Stuart they should be able to take Central Catholic in the second round, thereby going into the semifinals Friday night at which time anything could happen.

## BPW Will Be Hosts At District Meet

The Business and Professional Women's Club will be host to district 3, at the Municipal County Club on Sunday, Feb. 24. Mrs. Lila Mae Dargatz, state president, will speak on "Our Federation in Action". There will also be an election on district officers.  
The meeting will feature a basket luncheon, bring your own picnic and a light refreshment (furnish corn, salad greens and drinks).

## Cabbage In Heavy Movement To Push Celery's 71 Cars

Cabbage shipments reached a total of more than 100 cars this week, and it's short one day on the report celery accounted for about 150 carlot equivalents, with a good price.  
Mixed cars accounted for about the same as celery, while corn accounted for approximately 35 cars.

**Car Loading, Week Ending February 19, 1957**

	N. End	S. End
Beans	3 174 0	131
Cabbage	9 55 47	306
Celery	2 150 71	1328
Corn	2 129 18	159

## Junior Varsity To Enter PBC Tourney

Belle Glade's Junior varsity will take part in a county-wide basketball tournament to be held in Palm Beach Thursday, Friday and Saturday of next week. The Junior Rams have enjoyed a good season in their class and are entering the tournament with high hopes of making a good showing.

The following boys will make the trip for the tournament: Ronnie Perkins, John Charnick, Glenn Bair, Ronnie Hudepeth, Freddie Forsee, Clarence Throp, Ronnie Hudepeth, Carl Norris, Don Hobson, Doug Thompson and Charles Lockmiller.

## Auto License Tags Are Still On Sale In Belle Glade

Although an official extension of time has not been granted, automobile license tags can still be purchased in Belle Glade at the County Barn, on Pahokee Road, until March 1, according to Miss Margaret Pen, who is in charge of the local office.  
Hours are from 9:00 a. m. to 4:30 p. m. Monday through Friday, 1957 tags expire as of March 1st, and anyone driving with one and anyone bringing in one is subject to fine, she reminded.  
"I can express my sincere thanks to the Glades folks for their wonderful cooperation this year," Miss Pen requested. "Monday and Tuesday were particularly busy days for us, but with our more efficient set-up for handling this year's business and the courtesies and consideration shown by all the people we were relieved of much of the confusion of former years."

## Band Parents To Sponsor Hypnotic Marvels March 4

Arrangements have been completed by Belle Glade Band Parents Assn. for the big professional stage show, HYPNOTIC MARVELS, which brings Dr. Morton Greene here for an evening of entertainment on March 4 at the Belle Glade High School auditorium at 8 p. m.  
The 2-hour show includes astounding feats of prophecy and demonstrations of hypnotism in all its exciting and mysterious phases. Dr. Greene star of the show, is a nationally known hypnotist and a top flight entertainer and has delighted and baffled audiences for many years. He has received nationwide attention on radio and television appearances on WGN, NBC TV, TV Air Shows, Inc. and on the Ed Sullivan Show.

D. B. Marth, president of the Band Parents Assn., reports that their organization feels quite fortunate in being able to bring Dr. Greene to Belle Glade for the entertainment consisting of fast, clean fun in the mystery field and holds appeal for (Continued on Page Nine)

## LET'S REMEMBER!

"FIRST IN WAR, FIRST IN PEACE and FIRST in the Hearts of his Countrymen." That description of George Washington was not inspired as a result of vaccination, misrepresentation and colored representation of the facts. Whether George actually cut that cherry tree or got caught in some other boyish mischief, you and I remember "He did not tell a lie." He belonged to the landed gentry, which corresponds to our "monied tycoons" of today, but he was human and humane in his dealings with his fellow man and their rights.  
We commend a re-reading of George's life to both Ike and Mr. Dulles, to Mr. Wilson and to the Attorney General—in fact to the whole kit and kaboodle in Washington.

## Zoning In Glades Subject Of Lions' Speaker On Wed.

Probably the surprise of most folks in the Glades, "zoning-in" agricultural areas is number one for consideration of the County Zoning Board" according to Gerry Shultz, County Director, who spoke to the Local Lions club Wednesday.  
The first of area hearings scheduled will be held at the County Barn on Thursday, March 11th beginning at 1:30 p. m. The hearings will be held until 7:30 so that farmers may have an opportunity to appear.  
Proposed regulations covering 35 pages will be on file at the barn for the convenience of Glades folks before the hearing.

## Citizens Urged To Attend State's Rights Meeting

A State's Rights Meeting, with Frank Kirkpatrick, noted radio commentator and publisher of "The American Way," as speaker, will be held in Miami Saturday, February 23, beginning at 7:30, at the Durney Hotel, 32 SE. Second Avenue.  
This promises to be a most informative session on State's Rights and Constitutional Government and should be of interest to everyone. It is hoped that a large delegation from Belle Glade will be able to attend this event, which is being held in commemoration of the birthday of the Father of our Country, George Washington.  
Planning to attend, and urging others to do so, are Lawrence Will, Harris T. Remley, Harry Lamb and George LeGost. Any of these men may be contacted for further information or to arrange transportation.

## B. A. Kennedy Is New Pharmacist At Sullivan's Store

Mr. B. A. Kennedy arrived in Belle Glade Monday from Tampa to fill the vacancy at Sullivan's Pharmacy incurred by the death of "Doc" Lytleton.  
Mr. Kennedy was pharmacist at Fugates Drug Store for the past fifteen years. His wife, who is in business in Boca Grande, plans to join him there at the close of the season. The Kennedys are members of the Methodist Church.

## 122 Get Chest X-Rays At Osceola Housing Center

MRS. RALPH FREEMAN, area chairman, (l-r) is pictured with Mrs. Wooten, technician, during the Free TB Chest X-Ray examinations at Osceola Housing Authority on Feb. 11. Others identified as workers and those getting X-Rays are (l-r) Mrs. Isabella Lamb, worker, Mrs. Urban Branson, Bill Bailey, Mrs. Murphy, Mrs. Helen Moses, and Mrs. Sam Burns. Mrs. Corinne Freeman, Mrs. B. C. Times, workers.

## Chest X-Ray Tests Given To 6,886 In BG-SB Areas

Free chest X-ray examinations were given to 6,886 adults in the Belle Glade-South Bay area from February 12 thru the 19th, according to Mrs. Ralph Freeman, Belle Glade area chairman and W. C. Allen, South Bay chairman. Not included in the total are the X-rays given at the packing house area on Thursday.  
The following is a breakdown of X-Rays given: Bailey's Real Estate Office, 1051; Jenkins' Pharmacy, 1871; Belle Glade High School, 283; Lake Shore High School, 300; Closen West Grocery Store, 67; Packing house area, 253; Osceola Housing Authority, 122; Osceola Project, 355; Glades Prison Farm, 335.  
South Bay Post Office, 278; Bailey's Store (Joe Louis Ave.), (Continued on Page Eight)

## Lytleton Rites Held Tuesday A. M.

Funeral services for Dr. Otis S. Lytleton, 68, who died Friday at a local hospital following a short illness, were held at Wehring Funeral Home, Tuesday morning at 10:30 o'clock. The Rev. U. W. Malcolm, pastor of the First Baptist Church, Belle Glade officiated. Burial was in Port Mayaca Cemetery.  
A native of Ashland, Ky., Dr. Lytleton had lived in Charleston, W. Virginia, where he owned and operated his own drug store. He had worked as relief druggist for Leggett in New York, Kentucky, Virginia and W. Virginia and in Miami for Walgreen's. At the time of his death he was druggist at Sullivan's Pharmacy, working there the past five years. He was a member of the Christian Church in Ashland.  
Survivors include one son, Lytleton Thomas Lytleton, Cincinnati, Ohio; one sister, Mrs. James A. Kutner of Central City, Ky.; three grandchildren and one great grandchild.  
Active pallbearers were Robert Archer, Paul Davidson, Al Harris, Culey Collins, Curtis Slade and John Simms.  
Honorary pallbearers were J. J. Sullivan, Dr. Ben Sineath, S. J. Simmons, Dr. W. J. White, George Scarborough and D. B. Mathis.

## Amariyils Bulbs Is Topic Heard By 5th Grade Jr. Garden Club

The planting and cultivation of Amariyils bulbs and rooting cuttings was stressed at the meeting of the Junior Garden Club of the Fifth Grade at their meeting in the school cafeteria Tuesday afternoon.  
Cherry Bridges opened the meeting and introduced the guests, Mrs. Ray Roth and Mrs. Robert C. Abel. These members of the Garden Study Club, sponsor of the junior garden club, assisted Mrs. Luther Jones, leader.

## School Board Members Attend Nat'l Meeting

Henry O. Earwood, chairman of the Palm Beach County School Board, Ralph Kettler, vice chairman, and Thurman Knight have recently returned from Atlantic City where they attended the Nat'l Associational meeting of School Board members.  
In session three days many interesting programs on education were discussed. The group set in on round table discussions on the subjects of Nat'l trends in building, costs, salary schedule, rural, education, teacher shortage and many other fields of education included.  
Cecil B. DeMille, author and producer, was guest speaker at the banquet.

## Sermon Topic At Presbyterian Church

Dr. J. Leighton Scott, pastor of the Everglades Presbyterian announces his sermon subject for Sunday, Feb. 24 will be "Endless Strength through Waiting Phase."

## DR. L. DOUGLAS BROWN, left, is being directed by Tom Bregger, President of Rotary to some interesting happening. Tom's story intrigues Mrs. Culey Collins, who is chairman of sponsoring committee of the PTA.

Dr. Brown, professor of marriage and family life at Florida State University, who conducted a course in Family Life here through the sponsorship of the local P.T.A. was reported by Mrs. Culey Collins, local study committee chairman, to be concerned with the local need for counseling in family life on the part of parents and also students of the high school. He made himself available during long hours for individual counseling, and expressed regret at not being able to meet with all who wished to be helped with him, or able to spend as much time as desirable with those with whom he did meet.  
The P.T.A. is to be congratulated for the course which he conducted with each of the high school classes, Mrs. Rogers said that almost without exception, the students expressed a need and a desire for a course of this nature at least 8 weeks and possibly a semester's duration.  
In addition to brief courses (Continued on Page Eight)

## South Bay News

By American Legion Aux.  
Unit 151

Mr. and Mrs. H. M. Prevatt and family were week end visitors of her parents, Mr. and Mrs. J. R. Tucker in Fort Meade.

John Elfers and Joe Spanjar

Growers like

DITHANE M-22

...tomato diseases don't

"During the 1955-56 growing season I used Dithane M-22 exclusively on over 1000 acres of tomatoes. Disease control was excellent... In spite of generally poor growing conditions my overall average yield was 350 field boxes per acre, which was highly satisfactory under the year's conditions."

JOHN W. CAMPBELL, John W. Campbell Farms Co., Goulds, Florida

"We have used Dithane on tomatoes and several other crops... more than 10 years... For our last three tomato crops we have used a lot of Dithane M-22 and are very pleased with the disease control it gave us. Fruit quality has been superior, and all things considered, I believe Dithane M-22 is the outstanding tomato fungicide available today."

LOYD D. WITT, Witt Bros., Fort Pierce, Florida

There's no argument anywhere about the value of DITHANE M-22 for overall tomato disease control. About the only difference is that some prefer spray powder—others blended dusts available from your local dealer. Either way, this man's fungicide helps you get lush, rich green foliage, and outstanding yields.

Convenient packages meet tank capacity requirements

## Jay Smith Surprised At Birthday Party

In compliment to her husband on his birthday, Mrs. Jay Smith entertained a surprise birthday party at their home in Bean City Friday night.

Refreshments of valentine cake, ice cream, Cokes and coffee were served.

Guests were Mr. and Mrs. W. G. Bowen, Rev. and Mrs. John Cooper, Mrs. Louis Kersey, Mr. and Mrs. Frank Prevatt, O. M. McAllister, Mr. and Mrs. John L. Evans, Payton and Clayton Smith, Mr. and Mrs. Raymond Smith and Margaret Ann and Janie Smith.

## First Baptist Church

Announcement is made of the Stetson Youth team, who will return to the church for another Youth Revival on April 14-15, the Annie Armstrong Week of Prayer for Home Missions on March 4-8.

Intermediate Boys and Girls were entertained by their teacher, Jay Smith Sunday night at a social at the home of Mr. and Mrs. Bill Ferguson.

## Latter Day Saints Quarterly Conference

Announcement of a quarterly conference of the LDS in Miami at the First Branch Chapel located at N. W. 95th and 15th Ave., is announced by the local church, President Berkley L. Bunker of the Southern State Mission and his staff will be guest speakers.

## Labor Dept. Official Warns Of Child Labor

Some farmers in the Deerfield Beach and Pompano Beach area, according to Clem J. Denicke, investigation supervisor of the U. S. Labor Department's Wage-Hour Field Office in Miami, have been reported to be illegally using children to help harvest the lemon crop.

Warning that the federal law carries stiff penalties for per-

sons found to be willfully violating it, Denicke pointed out that the employment of children in agriculture was for the farmer to "be sure that no child under 16 is hired during hours when school is in session."

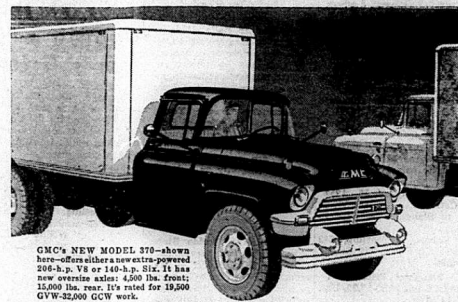

"The law is liberal," he added, "in allowing these youngsters to work on farms—picking beans, tomatoes, or other crops—but it is strict in re-

quiring that they not be hired during school hours."

Denicke said that investigators from his Miami office were currently visiting farms in the bean-picking areas in Broward and Palm Beach Counties for the purpose of advising farmers what the law requires of them. Most farmers already know what the legal hours are, he pointed out, investigators have been made in prior

years. For others not familiar with the law and regulations, he recommended that each secure a copy of the Labor Department leaflet on Child Labor.

While there are no restrictions on employment of children 16 and over, it is necessary for the farmer to obtain proof of the minor's age from the local county school officials, and keep a record of the young person's age and home address.

GMC's NEW MODEL 370—shown here—offers either a new extra-powered 200-h.p. V8 or 140-h.p. Six. It has new over-size axles, 4,500 lbs. front; 15,000 lbs. rear. It's rated for 19,500 GVW—22,000 GCW work.

## There's no substitute for a Money-Maker

TAKE THE POWER in GMC's new Money-Maker models. V8's start at 200 h.p. You have a tremendous reserve. So these engines CAN'T be strained in any normal use.

Only GMC gives you Hydra-Matic® savings in trucks of every size and type: You avoid all clutch repair costs. You're protected from shock-loading damage. Your brakes and tires last longer. In fact, these GMC's are engineered to outlast competitive trucks on any job. Frames are super-tough. New axles are over-size. You'll need far less time-out for servicing.

You'll need less trip-time, too. GMC's exclusive dual-purpose cab teams with a short turning radius for eye-opening maneuverability. And Safety Power Steering® gets you in and out of tight parking spaces—fast. Add it all up, and it's easy to figure what GMC Money-Maker advantages can mean on your job. Especially when you consider the eye-opening styling—a prestige maker for any business. Our trained truck specialists help you select just the right model for your needs. We'll be expecting you—soon!

All social notes and items of social interest should be communicated before noon Wednesday to insure publication the following program.

Mrs. Burt Thomas and daughter, Deborah Lynn, returned Thursday from a week's visit with her brother and family, Mr. and Mrs. J. M. Armstrong in Dothan, Ala. Mr. Armstrong is seriously ill.

Among those attending a Fashion Show and luncheon sponsored by the Clevelston Business and Professional Women's Club at the Clevelston Inn last Friday were Mrs. E. A. McCabe, Mrs. Vernon Dexter, Mrs. Myrtle Tabit, Mrs. Joe Murphy and Mrs. Edward F. Allen.

Mrs. Fred E. Henry and daughter, Paula Jean of Stratford, Pa., are visiting her parents, Mr. and Mrs. F. E. Hollingsworth, Rev. Henry and son, Fred, will join them here on March 1st for a week's visit.

Mrs. A. C. Wooten left Thursday for her home in Indianapolis, Ind., after visiting a month with her cousin, Mrs. Kathleen Livingston and son, Neal.

Guests of Mr. and Mrs. Ralph Freeman and family last Thursday were his cousin and wife, Mr. and Mrs. Guy Haide of Fairborn, Ohio.

Mr. and Mrs. J. L. Anderson visited Mrs. Perry L. Stone, who is a patient at Northshore Hospital in Miami, last Sunday.

Mr. and Mrs. Paul McGill, former South Bay residents, and Ronnie Pollock, of Detroit, Michigan, were guests Sunday of Rev. and Mrs. David Brantley in Lake Harbor. Other guests were Mr. and Mrs. S. M.

McAllister of Belle Glade, Jackie Morris, and Mr. and Mrs. C. B. Brantley, Sr. of Ft. Pierce who came on Friday for the week end.

Edmund W. Little, chairman of Board of Directors of Lowney Candy Co., Montreal, Canada and George Godio also of Montreal were week end guests of Mr. and Mrs. Ralph Freeman and family.

Mr. and Mrs. E. F. McAllister and children were week end guests of her sister, Mrs. Mildred Bates and mother, Mrs. Anna Mackey in Tampa.

Mrs. E. A. Allgood, who has been visiting her niece, Mrs. Gladys Williams and other relatives here, left Monday for her home in Kingsport, Tenn.

Mr. and Mrs. W. W. Howard and children, were called to Chattanooga, Tenn., on Monday by the death of his father.

Lawrence Nash, student at St. Leo School for Boys, arrived here Wednesday afternoon for several days visit with his mother, Mrs. Rosa Nash.

Mr. and Mrs. Edward F. Allen accompanied by Dr. and Mrs. S. J. Simmons, spent Thursday in West Palm Beach on business.

Mrs. Rosa Nash accompanied by Mrs. Kathleen Livingston attended a district meeting of postal supervisors in Orlando Saturday night. They were home guests Friday night until Sunday of Mrs. Nash's brother-in-law and sister, S/Sgt.

and Mrs. Jim Mayton and family, and on Sunday visited Mrs. Susan McKenzie.

Mrs. J. P. Halbrook, Sr., has returned to home in Chattanooga, Tenn., after spending three months with her son and family the J. P. Halbrooks. Home guests this week of the Halbrooks are his uncle and aunt, Mr. and Mrs. J. C. Halbrook of Belmont, Miss.

Mrs. Roy Kimberly and infant daughter, Karen Arlette, who have been in Lake Worth with her parents since the baby's birth joined Mr. Kimberly here this week. They are residing at the Gore Apartments. Mr. Kimberly, formerly of Lake Worth is the new golf pro at the Country Club.

Newcomers to Belle Glade are Mr. and Mrs. I. L. Walker and two small children of Charleston, South Carolina. Mr. Walker is produce buyer for Colonial Stores and has been working in the area the past seven weeks. His wife and children arrived last week end to be with him here the balance of the season.

Trooper R. G. Russell of the Florida Highway Patrol and Mrs. Russell and son, Raymond returned Tuesday from a three-week vacation in Tallahassee where they visited their parents.

**Yvonne Lockmiller Celebrates Birthday**

Mrs. Carl Lockmiller of 617 N. W. Ave. G., entertained a group of children at a party at the Municipal Park last Friday afternoon in honor of her daughter, Yvonne, who was celebrating her ninth birthday. Games were played and Vicki Hollingsworth and Jack Keesee were the winners. Favors of miniature-tops were given to the guests as favors and birthday cake, decorated in a western theme, candy and Cokes were served.

Present were Ellen Keesee, Karen Harris, Beth Hobson, Brenda Bass, Patricia Hodges, Tanya Croft, Diane Lutz, Vicki and Gene Hollingsworth, Jimmy Ludlow, Jack Keesee, Jimmy Seal and Charlie Lee. Mrs. Lockmiller was assisted in serving by Mrs. Charles Seale.

**Canal Point Couple Honored At Barbecue**

In honor of Mr. and Mrs. Jack Wilson, whose marriage took place in Folkston, Ga., on Feb. 9, Mr. and Mrs. W. E. Erickson and Mrs. and Mrs. Floyd Erickson were hosts at an open house and barbecue at the Wilson home in Canal Point.

Mrs. Wilson is the former Mrs. Eva Spencer, sister of Floyd and W. E. Erickson. Barbecue and all the trimmings were served along with a three tier wedding cake. There were some 100 guests celebrating the occasion including out of town guests from Hollywood, Miss., West Palm Beach, Ft. Hokee, Belle Glade, Pompano Beach and Port Mayaca.

**John Whites Hosts At Outdoor Barbecue**

Mr. and Mrs. John Whites were hosts at an outdoor barbecue dinner last Thursday evening at their home in Chosen complementing their brothers, Capt. Alvin Price of Tacoma and Pfc. and Mrs. William R. Price and children, who left last Friday morning enroute to the West Coast. Mr. and Mrs. W. R. Price and children will leave California late this month or early in March for a three year stay in Japan where he is serving as teletype operator in the United Nations building in Tokyo.

Other guests at the dinner included Mr. and Mrs. Lee L. Rhymer, Mrs. Kate Holcomb and children, Mrs. Glen Swindle of Immokalee and Mr. and Mrs. J. W. Mathewson and daughter, Mary.

**Painting Contractor Is Injured In Fall**

Jack Mathewson, local painting contractor, received severe cuts, bruises and suffered two broken ribs last Saturday morning while working at Standard Bulk Plant. On the last lap of painting elevated tanks, his ladder slipped against the fresh paint whirling him about sixteen feet to the ground. He has been confined at home the past week.

## Golfing Gallery Amazed By Yogi's Exhibition Show

With a suave swing and a completed disregard for all the chomping and reversed mystic of the game of golf, Count Yogi, world's greatest athlete, golfer and entertainer, amazed his audience of enthusiastic men, women and children at the Municipal Country Club Monday afternoon.

Preceding his one hour show at 4 to 5 p. m., Count Yogi played a nine hole exhibition match from 2 to 4 vs. Roy Kimberly, pro, Rapley Weeks and Louis Gold. He was the match. The last five holes were proof of his marvelous putting with only 4 putts, which he never lines up, they just go straight. Count Yogi played well over a hundred shots, using over 52 clubs of all kinds, long, short, broken, old and new, hitting the ball with remarkable accuracy from every conceivable position. He used a putting hitting the ball some 200 yards. The Count's theory is line it up, step around, even, pull, control and relax. He does just that, on every shot with the most amazing ease. His show is more like a comedy act than his swing is sincere and his results are what every golfer, from duffer to master is striving for, straight down the middle. All of his shorts from every angle were like a well placed radar shot.

He didn't hit a crooked shot throughout the whole show unless he called it in advance and his last three balls were out of this world, they all traveled between 250 and 300 yards.

During the show the Count stated that more people should play golf and especially teenagers in the prevention of juvenile delinquency. Another good idea voiced by the Count was that business hours close at an hour early in order that employees be able to play a game of golf late in the afternoon.

"The Belle Glade Golf Course is beyond question doubt the most underrated golf links in all Florida," Count Yogi said. "But you have the choice of intelligence to play, besides having an honest, sincere, young and talented top player and one of the greatest teachers, for the simple covering of a serious job in Roy Kimberly, that I have had the pleasure to play with and talk to on my tour."

Roy Kimberly, pro, who has recently taken over as Municipal Country Club, was former assistant greenskeeper at the Lake Worth Course and has won state tournaments with a High School foursome for two years.

**Garden Club Begins Project On Parkway**

The Belle Glade Garden Club held its regular meeting last Thursday afternoon at the Municipal Clubhouse, with Mrs. Herbert Beck, president presiding.

Mrs. C. W. McDonald, reported that the project of planting the parkway on the two way street by the elementary School was underway.

Elected on the nominating committee were Mrs. C. J. Aspey, Mrs. W. H. Hooker, and Mrs. J. F. Browne. A slate of officers will be presented at the next meeting.

Mrs. Irvin Zumpt in the absence of Mrs. James Spence gave a talk on vegetable table arrangements and demonstrated several made by Mrs. Spence. In the contest on Japanese arrangements, Mrs. Lonnie Warren won 1st; Mrs. Irvin Zumpt, 2nd; Mrs. Beck and Mrs. Ivan Van Horn tied for 3rd.

The specimen contest on gerbera were won by, 1st, Mrs. C. W. McDonald, 2nd, Mrs. Zumpt; 3rd, Mrs. Beck.

Guests were Mrs. Glen Smith, Mrs. Ted Daniels, Mrs. L. M. Sharkey and Miss Margaret West. Hostesses were Mrs. J. D. Halbrook, Jr., and Mrs. C. M. Walker.

## CAFETERIA MENU

Monday, Feb. 25 — Sloppy Joes, potato chips, cole slaw, fruit cup, milk.

Tuesday, Feb. 26 — Stew beef and vegetables, corn-tomato salad, fruit jelly, milk, buttered bread.

Wednesday, Feb. 27 — Baked ham, rice and gravy, English peas, ½ orange, milk, bread, butter.

Thursday, Feb. 28 — Chicken pot pie, combination salad, lemon custard or orange juice, milk.

Friday, Feb. 29 — Fish sticks, tartar sauce, buttered potatoes, combination salad, milk, buttered bread.

(Note: The fourth grade students presented the menu for Friday at the cafeteria as they are studying about fresh fruits and vegetables, grown in Florida, and Florida Festival Week.

## BIRTHS

Feb. 18 — Mr. and Mrs. Earl Davidson, (Shirley Taylor) Canal Point, announce the birth of a daughter, Joanne, at Belle Glade Memorial Hospital.

Feb. 18 — Mr. and Mrs. Burt Howard Keller, (LaFaye Clark) Belle Glade, announce the birth of a son, Johnnie Ray, at Belle Glade Memorial Hospital.

Feb. 2 — Mr. and Mrs. Levi John Miller, (Anna Belle Berry) Belle Glade announce the birth of a daughter, Cheryl Vanessa, at Belle Glade Memorial Hospital.

Feb. 2 — Mr. and Mrs. Ramon Ortiz, (Carmen Ramirez) of Belle Glade announce the birth of a daughter, Maria Cristina, at Everglades Memorial Hospital.

Feb. 2 — Mr. and Mrs. B. W. Strickland, (Betty Brunell Nalin) Pahokee announce the birth of a daughter, Donna Jean, at Everglades Memorial Hospital.

Feb. 2 — Mr. and Mrs. Loren Meredith (Majella Cunningham) Pahokee announce the birth of a son, Loren Wiley, Jr., at Everglades Memorial Hospital.

**Hi School Students Ball Room Dancing Classes Underway**

A program of ballroom dancing instruction under Mrs. Tom (Dorothy) Schwaller, sponsored by the Recreational Department of the Belle Glade High School and the Student Council for all high school students is under way.

The dancing instruction under Mrs. Schwaller began Tuesday night, with Miss Cynthia Slater, Physical Education teacher assisting, and Mrs. Bill Nicholson assisting in chaperoning the group.

A well qualified teacher in dancing, having taught two years with Arthur Murray studios in Amarillo, Texas before moving to Belle Glade, Mrs. Schwaller, a native of Wiesbaden, Germany studied ballet for six to seven years in her native country. She came to the states in April 1952 and joined the Murray Dance Studios as a student upon arriving. Mrs. Schwaller and her husband are both associated with the Lake Gas Company here.

Classes for dancing instruction will be held each Tuesday night from 7:30 to 9:30 p. m. in the High School Gymnasium.

Over 100 teenagers have signed on for the course, according to last week's report. The program, which is also being supported by the City, is an added endeavor to discourage juvenile delinquency through supervised activities.

### All Army Posts Aiding Boy Scout Activities

Recent statistics show that actions under the Army of providing advice and assistance to the Boy Scouts of America climbed to new heights in 1956.

Incomplete results for the first three-quarters of the year indicate that five of the six continental Army areas have

donated surplus property worth more than five and one-half million dollars to the BSA. During this period some 145,319 Scouts toured Army installations, of whom, 60,742 utilized the Army's educational, training, and recreational facilities. Approximately 4,600 Army personnel participated voluntarily in scouting activities and 400 Scout and Employer encampments used the

Army's facilities, usually from one to three days. The Army supported scouting activities at a high rate in all overseas commands. At Dauphin, Germany, Army engineers built a new camp with a central dining room having a seating capacity of 300, kitchens and administrative buildings for the American Boy Scouts in Europe and Africa.

The Army has gone all out to support the Boy Scout Jamboree at Valley Forge, Pa., July 12-18 this year. The Engineer Corps has completed an outdoor amphitheater which can accommodate 54,000 persons.

Some of the supplies the Army will loan for the Jamboree are 94 large Circus-type Assembly tents, 125 Squad tents, 175 Sections tents for a field hospital, 3,500 Small Wall tents, 3,000 Litter Bags, 12,000 14 quart buckets, 130 covered vehicles (Sedans, Jeeps, Buses, Ambulances), 30 Walkie Talkie radios, 100 First Aid Kits and 37 — 10 KW generators. The value of this equipment is estimated at more than \$2,500,000.

### Council Posters Urge "Eat More Florida Beef"

More than 3,000 beef posters in full color will go up in grocery stores throughout the state this week according to Ledley Wear, President of the Florida Beef Council.

The Beef Council posters will stress any particular grade of beef. "We're anxious to show Florida housewives that even the lower grade Florida Beef is flavorful and nutritious if prepared properly," Wear said.

In Tampa, state co-chairman for the Florida Products Festival, D. M. McCormick, said he is "happy to know the Beef Council will help create a greater demand for Florida Products."

McCormick said more than 3,000 independent and co-op grocery stores have pledged 100% support for Florida products during the Festival.

### Half Billion Dollars And 26,000 Folks Help "Southern Made Fords"

Ford dealers broke all sales records for the October-to-January period by selling more than a half-million 1957 Fords in the first third of the model year. C. R. Beacham, Ford Division general sales manager and a native Georgian, said today.

Mr. Beacham made the announcement to Ford Division sales executives who gathered here from all over the South and the Eastern half of the U. S. to discuss plans for increasing the record sales pace throughout the year.

The October-to-January sales record breaks a previous record of 485,943 units sold during the same period of 1955-56. This record had stood for 32 years, ever since 1923-24 when 484,901 sales were made.

Mr. Beacham said that automobile sales are increasing and that consumer buying intentions are higher than they have been for two years. The sales rates fully justify our earlier prediction of 6.5 million sales by the industry this year, he said.

The South is contributing

significantly to the increases in Ford sales, Mr. Beacham said. During January Southern Dealers sold 27 per cent more cars than during January, 1956, he reported.

To handle the growing Ford business in the South, Ford dealers have a half billion dollars at work here, creating jobs for 56,000 people. The payroll is approximately a quarter billion dollars annually.

Ford's Southern plants produce about 200,000 more vehicles annually than are sold in the Southern market, he said. This means that every Southern-built Ford sold somewhere else in American has helped create a new job for a Southerner," he said. Because of such achievements, he added, the South's economy is growing at twice the rate of the rest of the nation.

### Savings Bond Interest Rates To Be Increased

The Treasury announced today that it has requested the Congress to enact legislation which will permit an increase in the interest rate on new sales of United States Savings Bonds.

If the proposed legislation is passed, the Treasury plans to increase to 3 1/4 percent the interest rate on new E Bonds held to maturity, in place of the present 3 per cent. The issue prices and face value of the new E bond will be unchanged, but the present 9 years and 8 months maturity will be shortened to 8 years and 11 months. Terms of any extension privilege for the new bonds will be determined later.

However, present owners of bonds will generally find it advantageous to continue holding them. For example, a \$100 E bond has a redemption value of \$79.20 when held two and a half years. That bond will earn \$20.80 more to reach its full \$100 value at first maturity, and this \$20.80 is slightly more than 3 1/4 percent on \$79.20 for the remaining period of 7 years 2 months, compounded semi-annually.

People holding bonds which have reached maturity and are being retained under the ten-year extension privilege will also find it to their advantage to continue holding them. Such

bonds reaching the extension period since May 1952 are already paying a full 3 percent interest compounded semi-annually and are redeemable on demand, and bonds of an earlier period show a still greater return.

The Treasury also plans to offer, effective February 1, 1957, a revised 10-year Series H bond with yields generally comparable to the new E bond and returning 3 1/4 percent if held to maturity. The new H bond, like the present bond, would pay interest by check each six months in contrast to the appreciation-type E bond.

On passage of the legislation, all bonds dated February, 1957, or thereafter would bear the new terms automatically. Existing stocks of bonds in the hands of the Treasury's more than 20,000 E bond issuing agencies would be used until supplies of the new bonds are available. Since the issue date on the bond would determine its terms, no purchaser who received an old form of bond dated February, 1957, or thereafter need feel that he should exchange it for a new bond when it is available — although he may if he wishes.

The man who buys a Savings Bond has something that other bonds do not offer — complete freedom from market fluctuations. He also has something many other forms of savings do not have — a guaranteed interest rate over a period of years. He has the unusual protection of safety against the physical loss or destruction of his security; a million separate bonds have been replaced by the Treasury over the years.

Because of the more attractive features of the new Series E and H bonds, the limit on bonds which may be purchased by one individual in any one year is being reduced from \$20,000 to \$10,000 face amount for each series.

## International Diplomacy (?) Sours Glades "Sweetest" Land Utilization

Mr. Dulles can always cushion his "fall from grace" for lunging by reference to cane and it's a staple table necessity. Sugar growers' absolute dependence on peculiarities of lace-cuffed international politics and diplomacy (?), it took Congress just recently to legislate to continental sugar producers the privilege of furnishing to our own people some of the increase in consumption over and above assigned quotas.

Palm Beach County's eleven and a half million dollar annual production of sugar and by-products is continuously faced with abandonment or cutbacks in acreage, not because of increased acreage, but because of increased production per acre.

However, sugar production has been a major factor in Glades economy for the past 25 years, and still offers a diverse

drainage districts have been organized on the fringe of the lakefront acreage, sugar operations included lands in all Glades drainage districts, and the County taxes along with the drainage taxes normally paid in the discount period, filled the financial voids created by delayed payments of vegetable farmers.

The better than eleven million dollars of new money brought into the area by sugar continues an important item in the stabilization of Glades economy.

Sugar operators own more than 135,000 of the 760,000 acres in the agricultural area established by soil scientists and engineers, and therefore with their financial abilities, seek complementary activities for the use of land. Cattle looms large in this category, and as long as it is a staple food gives further stability.

Our "Sweetest" business is not all "sour" by a big lot

it's outstanding in Florida, it's pinpointed for production per unit in the national sugar picture, it's well known throughout the world where sugar producers are found, and the well-paid labor of the Florida industry is the envy of similar labor throughout the world.

### 31 Boy Scouts Go On Camping Trip

Scout Master Bob Lanier of Troop 22, assisted by Hershey Chaney, student of Belle Glade High School, took 31 Boy Scouts including 5 explorers on a camping trip Friday, Feb. 15 to the Boy Scout Camp on the Loxahatchee River in Martin County. The boys made the trip for the purpose of working out a patrol system and to work for Merit Badges on camping and cooking.

The Boy Scouts on the trip were as follows: Carl Norris, Michael Berryhill, George

Faulkner, Royce Mayo, Billy Pierce, Dick Wiley, Sammy Guyro, Don Hobson, Michael Guyro, Don Hobson, Billy Schoenfeld, Ralph Marotta, R. L. Godsey, Frank Rider, Bill Burnett, Hub Spooner, Lee Lanzer, Jerry Geron, James January, Wayne Wood, Sammy Van Landingham, Larry Wood, Bobby Parrish, Eddie Whitlock, Roy Bedsole, Charles Seale. Explorers were Jay Bedsole, Jay Allison, James Faulkner, Glenn Bair and Glen Williams. Mr. Lanier, accompanied by Mrs. Lanier attended the annual banquet of the Gulf Stream Council on Feb. 14 at the Methodist Church in West Palm Beach.

### Postoffice Continues Sale Of Polio Stamps

As a special contribution by the Post Office Department to the goal of eradicating polio, Postmaster General Arthur E.

Summerfield announced today arrangements have been made to keep the new polio stamp on sale indefinitely.

The new 3-cent commemorative stamp "Honoring Those Who Helped Fight Polio," was placed on first day sale January 15 in Washington, D. C. It was originally planned to issue 120,000,000 of these stamps.

"However, now, as a continuing reminder to people to take their polio shots," Mr. Summerfield explained, "the Post Office Department will keep the polio stamp on sale at all post offices for an indefinite period."

A notice to this effect will be published in the Postal Bulletin of February 14, 1957. The notice will also direct that "Postmasters at offices of all classes shall sell the polio stamp to window patrons. The regular 3-cent stamp must also remain available for sale to firms and patrons who prefer the smaller stamp."

## The N. V. Greers Leave Belle Glade

The best wishes from a host of friends go with Mr. and Mrs. Nello V. Greer, who moved this morning to Palm Beach. To make their home in South Miami. Mr. Greer is employed with the Wash-Perini-McConkey Construction Company on a large project near Sweet Water. Mr. and Mrs. Greer are both early Glades Pioneers and have lived in South Bay and Belle Glade for many years. Their daughter, Gloria Gail, is attending school in Mt. Verde this year.

## Registrants Requested To Report To Board

The following registrants are to report a change of address to their local board which is No. 148, Belle Glade, Florida: Leonard Bingham; Willie Lee Jackson.

These registrants are to complete forms which are necessary to determine their correct classification. Anyone knowing the address of either of the above is to report same to the Local Board No. 148, Belle Glade.

## BAND PARENTS TO

(Continued from page One) the whole family. Both adults and children will be fascinated by his weird and mental gymnastics which include audience participation, featuring demonstrations of various phases of hypnosis including control of the subconscious, telepathy, pain control and many others.

One of this most amazing feats will be to be billed as "The Long Long Ago" where the doctor gives a demonstration of Age Regression, taking one back to a time before birth for a glimpse similar to that experienced in the famed "Bridget Murphy Case."

One of the high highlights of the show, will be held at 4 p. m. the day of the show when mildminded Dr. Greene will make the trip down the main street of town in a brand new 1957 Ford car furnished by Belle Glade Motors! The public is invited to witness this free demonstration of mental skill, which will be under the supervision of the police dept. Riding with him will be one of the city officials.

Tickets will be on sale by parents. Admission is Adults \$1.00 and students 50c.

## CARD OF THANKS

We wish to thank all our kindred friends for all the kindness shown us during the illness and death of our beloved husband, father and brother. A special thank to Rev. Malcolm for his comforting words — to those who remembered him throughout his illness until prayers and encouraging words — to those who sent beautiful flowers and memorials to the heart fund — to his kind Nurses and Doctors and to the ladies of the community who prepared and served meals to the family, your kindness shall not be forgotten. May God bless you all.

Ruth S. Stein, Mr. and Mrs. Fritz Stein, Mr. and Mrs. Dan Sellers, Mr. and Mrs. Forest Smith, Mr. and Mrs. Hans Stein, Mr. and Mrs. Joe Cherry, Mr. and Mrs. Tony Stein.

## CARD OF THANKS

I wish to thank my friends for their thoughtful kindness during my recent hospitalization. I also wish to thank Dr. Baker and staff at the Belle Glade hospital.

W. E. Cato.

## Winifred Buris Among Colleagues In Study Of U. N.

Miss Winifred Buris of Belle Glade, Florida, a student in the University of Florida is one of 53 colleagues in New York the past three days for a first-hand study of the United Nations.

The traveling seminar representing fifty colleges left here by bus for Washington tonight where three more days of contacts with important persons and agencies of the Federal government are scheduled.

Sponsored by the Methodist Student Movement and seven cooperating agencies the seminar has as its coordinator, Professor L. Harold DeWolf of Boston University.

Briefing on U. N. agencies, views to officials, and interpretations by international leaders filled the days. Among the speakers heard by the students were Mrs. Eleanor Roosevelt, chairman of the Board of Governors of the American Association of the U. N., and Dr. O. Frederick Nolde, director, Commission of the Churches on International Affairs.

The Biblical basis for social action was pointed up by noted theologians at Union Theological Seminary.

## CHEST X-RAY TESTS (Continued from page One)

In the south east section of Belle Glade, under Mrs. Earl Lindrope, 403 registration cards were left at 196 homes; East of city limits, Mrs. E. W. Scheff, 100 cards; 50 homes; North of city limits, Mrs. I. L. Price, 29 cards; 14 homes; N. W. section, Mrs. Mendal Luce, 113 cards; 44 homes; S. W. section, Mrs. William Graber, 423 cards; 183 homes; S. of Canal and West f railroad, Mrs. Rawls Mackey, 400 cards; 150 homes; North of Canal, Mrs. West to Railroad, Mrs. Don Sellers, 150 cards; 75 homes; colored town, W. C. Tyson, 240 cards; 692 homes. This made a total of 1,594 homes including rooming houses that were contacted and a total of 2,490 cards.

Mrs. Freeman wishes to thank all the workers including those helping out at the units throughout the area.

## DR. L. DOUGLAS BROWN

(Continued from Page One) conducted in class hours with students. Dr. Brown was guest speaker at the young people's meeting of the First Baptist Church on the Sunday evening of his week's stay. He conducted the annual Family Life Institute for the PTA on Monday and Tuesday evenings, discussing on Monday evening Pre-Adolescent problems, and on Tuesday evening, Adolescent Problems.

On Wednesday he conducted a study for parents of Elementary School age children. In addition, he was guest speaker at the weekly luncheon meetings of the Lions Club and Rotary Club.

On Friday afternoon, Dr. Brown served as moderator at a panel discussion at the High School. Participating in the discussion were Mr. Emil Wolf and Mrs. W. J. Norris as parents, and also Coach Jim Maynor as a teacher. Students participating were Shirley Rhymes, Charles Royal, and Philip Cant.

All who attended considered the course educational and very worth while.

## Jay-C-Etts Sponsor Methodist Orphan

Members of the Jay-C-Etts voted to support a four year old orphan girl in the Methodist Enterprise Home for one year and to set aside \$250 for the project, at the regular meeting of the PTA on Monday.

Plans were also made for a pot luck supper with the Jaycees next Thursday night. An announcement was made that a Tupperware party would be held at the next meeting.

Members present were Mrs. Bill Bailey, Mrs. Marilyn Chapman, Mrs. John Kinlaw, Mrs. Robert Mathews, Mrs. Tommy Parker, Mrs. Benny Richmond, Mrs. Larry Royal, Mrs. C. L.

## "Who Says You Need Costly Shots To Relieve 'Hot Flashes' And Irritation From Change-Of-Life?"

Mrs. A. M. Watson, O.K., adds, "Middle age" was torture. Had costly shots 3 times a week but got no relief. Then took Pinkham's Tablets. They brought me new happiness, comfort!"

Science offers women new freedom from much of the misery of change-of-life. Thanks to a new, amazing new tablet developed especially for women, these functional, caused discomforts. Doctors report successful results using this remarkable home treatment alone... and no surgery needed!

Relief for 8 out of 10 tested! Irritability, tortured nerves were calmed. Disturbed sleep, hot flashes subsided. Here's why. Unlike aspirin and such "general purpose" remedies, this new tablet is a unique combination of special

medicines... acts directly on the cause of these troubles... works through a woman's mysterious nervous system to relieve tense, twisted, and disturbed nerves, thus bringing them back to normal. Now this amazing formula is available in a new, easy-to-use, easy-to-swallow tablet. Ask for "Lydia Pinkham's Tablets." Don't miss this opportunity to get the best of both worlds. Contains blood-building iron. See how fast you can feel your happy self again—without costly shots! (Also liquid Lydia E. Pinkham's Vegetable Compound.)

Dr. J. H. Sasser, D.D.S.

H. SASSER WATSON, D.D.S.

# Glades Muck Adds \$60,000,000 Value To FLORIDA PRODUCTS In Vegetables, Beef, Feeds, Fibers, Sugar And Sod

## Level And Uniformly Productive Soil Encourages Mechanization

### Scientists Reveal In Ready Response And Unmatched Vitamin Content Of Produce

Intelligent and economical use of minor elements and supplementary fertilizers with precise defined methods of culture bring to the muck farmer or grower tonnage per pound of

energy expended in high quality and unmatched vitamin content of food for man and beast than in other known agricultural areas of the world.

Farmers, cattlemen, scientists and farm labor from the several states of the Union, the Provinces of Canada, the lands of the Caribbean and South America, with a sprinkling of "Florida Crackers" shipped produce in carlots last year amounting to more than \$60,000,000 from this agricultural empire.

Admittedly the "finest sweet corn ever" and the Nation's largest volume, was shipped; with quality unsurpassed, celery shipments place this area at the top in volume; potatoes, cabbage and entire lettuce and leaf

family account for unprecedented tonnage; string beans, squash, peppers, eggs and eggplant and radish add substantially to the daily truck and car lots leaving the shores of Lake Okeechobee.

With a cattle auction market, cooperatively controlled, young in years but largest in the State in volume, beef production is sponsored mainly as "grass finished" on high protein, year-round green grasses. Wet lot feeding on home-grown corn is gaining in practice, as witness the steaks shown elsewhere on this page.

No cattle raising area offers ranchers the low animal-unit investment of \$125 as does the Glades; there are no diseases or insects that our Experiment Station and scientists and pasture operators haven't been able to control within the bounds of reasonable economy.

Foods mixed from high protein grasses, local corn, and blackstrap molasses require a minimum of added "boughten" minor elements to provide a balanced dairy or beef ration. Dairying on the muck, to date, has served to emphasize the hazards and methods of overcoming these hazards. A five year study indicates that milk may be produced in the Glades for from 30 to 37½ cents per gallon with the required high butter fat content.

Sugar is a proven crop but due to the international control of quotas, this industry seems pegged at its present acreage. The impact on the area's economy from the present sugar operations has been of major importance in bringing the Glades to its present high state of development.

(Continued on Page 12)

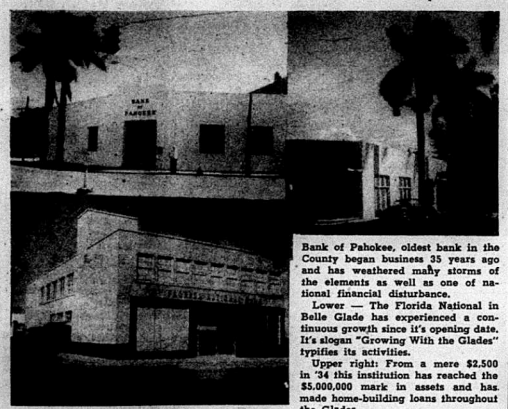

## Western? Yep - West Of Lake Harbor

THE YOUNGSTER from whose loins these came has a Sire who is a member of the only Royal American Clan—Santa Gertrudis; his immediate maternal ancestor, however, carries the blood of Spanish cattle of DeSoto's time mixed with that of the Hilarant troubadourish range clan of Florida's swamps and sand ridges throughout several centuries; the mother was strong of limb, large of body and graceful as a

(Continued on Page 11)

## Role Of Glades Banks In Economic Growth Is Major Factor

Bank of Pahokee, oldest bank in the County began business 25 years ago and has weathered many storms of the elements as well as one of national financial disturbance.

Lower — The Florida National in Belle Glade has experienced a continuous growth since its opening date. Its slogan "Growing With The Glades" typifies its activities.

Upper right: From a mere \$2,500 in '34 this institution has reached the \$5,000,000 mark in assets and has made home-building loans throughout the Glades.

## Calf Raising From Improved Herds Highlight Glades Use Of Brahman Crosses With European Beef Animals

CHABRA-CHARLOISE and Brahman (top) and Braford-Brahman and Hereford — provide heavy calves with ability to show gains within eight months and in the period 18 to 24 months, greater than the purchased of either strain.

The Brahman-Angus (Brangus), as well as any European beef type animal crossed with the Brahman has produced very satisfactory results in the muckland.

"In 1950 there were some less than 1,000 cows in the Glades that were being used as a part of a breeding program through herd improvement, and since that time the Glades Livestock Market alone has aided in securing more than 1,000 purebred bulls for herd improvement," said George Young when asked about calf production in the Glades.

Estimating 25 to 30 cows for each bull this specifically accounts for 25 to 30,000 cows now being used in herd improvement and "calf-operation" program.

Paul Thompson who came to the Glades as a pen-enthusiast from Indiana and Kentucky fields and who adjusted his operation gradually to grass-fed steers reports near 4,000 cows now in a calf program. "We are now getting close to a 95% calf crop, I think, and see no reason why we shouldn't continue that percentage. Anyhow, any cattlemen who operates with any efficiency at all should expect to average a 90% calf crop in the Glades."

Investigation with many other Glades cattlemen confirm the 90% calf crop "expected return" of Mrs. Thompson's George Wedgworth, Fritz Stein, Jr., and John L. Evans of South Bay, among those who have had such programs longest in the Glades, confirm these figures generally.

It is generally accepted that in a breeding program 1½ producing cows per acre, together with the necessary bulls, and calves at-side, will produce 1.35 calves average per acre and insure best use of the pasture.

Estimating that a calf will become self-weaned at 500 pounds, which will occur at from six to eight months, calves may be produced on the muck at approximately 8.5¢ per pound, which includes a rental of \$12.50 per acre for the land. An operator may expect, then, a net of from \$35 to \$50 per acre for his efforts.

A family operation of approximately 320 acres in the Glades, and there are a goodly number of them in the Belle Glade area, should add from \$2,000 to \$2,500 to this family-performed "labor."

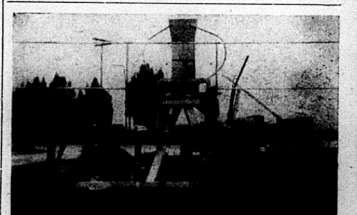

So, it appears that a calf-raising operation in the Glades does offer substantial possibilities.

Students of the cattle industry have noted that the cattle population of the United States follows generally the rising line which indicates human increase in population, although the up-

## Impetus To Mechanized Farming Aided By Ingenuity And Industry Of Muckland Farmhand And Employer

With a few native Floridians found here and there, muckland farmers, and cattlemen are a breed of adventurous and pioneering immigrants.

The territory is new in agriculture and each year finds a new crop, of new methods of distributing the crops we have, as witness sweet corn — the largest shipping area in the U.S. Beef cattle offer the cattle man of the midwest and west a lesson in the economy of beef production with our \$150 per animal-unit investment. The radish for several hundred dollars per boys remodeled a stagnant acre.

ONE TRACTOR AND DRIVER with two men on machine will plant from 10 to 50 acres of sod pieces per day. The machine cuts the sod into 2 x 3 inches and plants in four foot rows with varying distances in the row. The machine will carry an ordinary truck-load of sod at one loading.

market for bunched radish with wilted tops to a multiplied demand by the housewife for a ready-for-table package.

The initiating of vacuum cooling for leafy vegetables, in the minds of the informed, point to an unmatched quality and volume of car-load loadings from the mucklands.

The average Glades farmer is open-minded — he's ready for new ideas and he has the initiative and energy, coupled with a peculiar intestinal fortitude, to say "let's go" instead of "all right go ahead".

Since the days of Lawrence Will on the Bolles Canal and H. H. Hart on Indian Mound, when the necessity for a bottom plow initiated the evolution of the present "41", to the Bill Pierce "merry-go-round" that takes Cary fiber and turns it into a clean stapled and carded product ready for the spinner, Muckland ingenuity has met the problems of mechanical agricultural operation.

The present-day mole drain is a far cry from the original one described by Pop Lord and used on the Brown Farm at the suggestion of an old boat captain. The Captain said, "If you will pull an eight-inch round pellet through the muck at a determined depth, you will leave a passage-way for water to drain from the ground and for irrigation from the field ditches."

That eight-inch round pellet has become an eight-inch bullet — some 24 to 30 inches long

Drainages have been made to walk where they weren't designed to do work; wider and longer tracks have also been put on caterpillar-type tractors.

The "Devil-catcher" for running down fields before plowing is a simple device, but effective and necessary in the muck where growth to man's height is a matter of a few weeks.

Many caterpillar-type vehicles have been rubberized to secure four times the field speed with no loss of tons pulled on rubberized field wagons. U. S. Sugar has been outstanding in this conversion.

Any celery field or radish patch and we have several tons of Glades hauling, especially in the muck fields, and multiple-tired wheels give support and traction to all manner of agricultural vehicles.

Twenty-four row spray and dusting machines are products of need where 320-acre fields are common.

Mobile harvesting machines for celery, corn and leaf crops are marvels of efficiency and time-saving to agriculturists

(Continued on Page 12)

## FESTIVAL OF FLORIDA PRODUCTS WEEK PROMOTED BY WINDOW DISPLAY AT FLORIDA NATIONAL BANK

MANY OF FLORIDA'S NATURAL SCENIC ATTRACTIONS are displayed in colored posters in Florida National Bank window this week in keeping with the State-wide Florida Festival Promotion.

THE FLORIDA NATIONAL GROUP of Banks has been a part of FLORIDA PRODUCTS Festival since its inception, from Pensacola to Miami, and we at Belle Glade take pride in the influence of our organization's participation in THE GLADES.

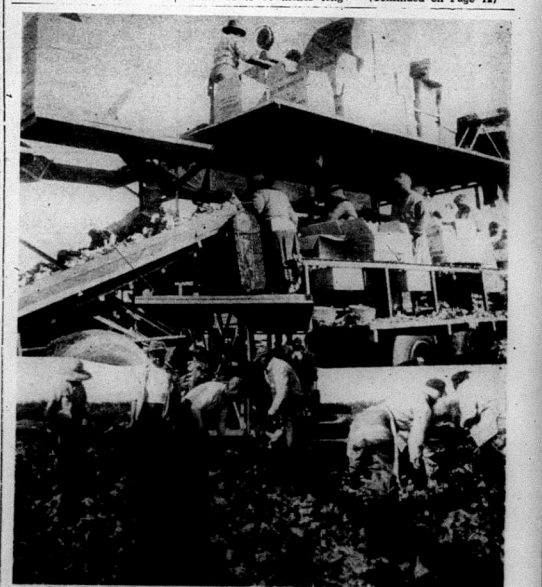

"GROWING WITH THE GLADES" localizes the slogan "WHAT FLORIDA MAKES — MAKES FLORIDA", and both indicate our efforts.

We compliment the local merchants in their sincere effort to point out to Glades folks the virtues of

## Buying In Belle Glade

Continued on page 11

FIELD HARVESTER is shown in lettuce field where cutters place head on conveyor belt, running across picture, to a central conveyor for a trip to grading platform. At top is shown cutters being assembled. A truck at the rear of the machine receives the graded and packed boxes as they come from grading platform. Similar machines are used in all leaf crops and corn. Celery machines using approximately a 65-man crew is expected to harvest 2,000 plus crates per day.

## Mechanical Ditch Bank Maintenance

A COMPARISON of the cut and uncut sides of a ditch on the Duda Farms. The ditch cleaner built by the Belle Glade Machine Works operated by one man has cleaned the sides of the ditch on the right. On the left is shown the sides not yet cleaned. Many man-hours are saved and the consequent saving in expense is a major item on a large farm.

## Field Ditch Maintenance Demands Regular Work

Fields divided into 20-acre plots for irrigation and drainage necessitate approximately 3 or 4 sections will amount to 35 miles of ditch-banks per section of land and these ditches, being the life-blood of the crops, must be kept clean of weeds and grass.

Hand labor for a farm having an enormous bite into potential

profits.

With such a problem, Duda Farms cooperated with Belle Glade Machine Works in designing a machine to cut ditch-banks. The machine is now being used daily on Duda Farms.

Comparison of the right and left banks shown demonstrates the work the machine easily accomplishes.

The cutting unit is hydraulically controlled, with a slant of 45 degrees above horizontal to one of 67½ degrees below the horizontal.

Para grass, a common growth in the Glades will run from bank to bank finally clogging the ditch to a stage of ineffectiveness so far as water passage is concerned.

The working speed of the machine is from 2 to 2½ miles per hour.

A father was reading his paper one evening and his little boy kept pestering him to play games. The father, in desperation, tore a map of the world from the newspaper and told his son to put it back together like he would a jig-saw puzzle, in about five minutes the boy was back with the map properly assembled. The father asked how he did it so fast. The boy replied, "There was a man on the back of the world map. When I got the man straightened out the world was right." Think it over!

Employees of television station WTVT of Tampa have pledged one day's pay to Tampa's first United Fund Drive, according to General Manager P. A. Suggs of the station.

## Sugar Production Furnished Bulwark Of Glades Economy In The Early Days

Mr. Dulles can always cushion his "fall from grace" for bungling by reference to cane sugar growers' absolute dependence on peculiarities of laced-off international politics and diplomacy (?), it took Congress just recently to legislate to continental sugar producers the privilege of furnishing to our own people some of the increase in consumption over and above assigned quotas.

Palm Beach County's eleven and a half million dollar annual production of sugar and by-products is continuously faced with abandonment or cut-backs in acreage, not because of increased acreage, but because of increased production per acre.

However, sugar production has been a major factor in Glades economy for the past 25 years, and still offers a diversification most stable for the overall year-round economy and it's a staple table necessity.

The 30,000 acres planted to cane covers the area from Canal Point to Benbow, is not dominating in attitude nor physical volume, although it's stabilization effect is dominating in periodic set-backs and disasters in the vegetable production.

The more than 4,500 employees of the Glades sugar industry includes a goodly number of off-shore British subjects brought in for the harvest, with some remaining for the off-season (summer) maintenance work. The weekly payrolls to

field work as well as the bi-weekly earnings to other employees when distributed over the entire Glades helps keep the cash register ringing throughout the year.

Until recently, when sub-drainage districts have been organized on the fringe of the lakefront acreage, sugar operations included lands in all Glades drainage districts, and the County taxes along with the drainage taxes normally paid in the discount period, filled the financial voids created by delayed payments of vegetable farmers.

The better than eleven million dollars of new money brought into the area by sugar continues an important item in the stabilization of Glades economy.

Sugar operators own more than 135,000 of the 750,000 acres in the agricultural area established by soil scientists and engineers, and therefore with their financial abilities, seek complementary activities for the use of land. Cattle looms large in this category, and as long as it is a staple food gives further stability.

Our "Sweetest" business is not all "sour" by a big lot — it's outstanding in Florida, it's pinpointed for production per unit in the national sugar picture; it's well known throughout the world where sugar producers are found, and the well-paid labor of the Florida industry is the envy of similar labor throughout the world.

**CARD — Opener —** PROVIDED BY INTERNAL IMPROVEMENT BOARD enable the Experiment Station to furnish ramie fiber for experimental and testing purposes to manufacturers within hours.

Jack Little (left) directs Joe Hubbard in feeding the stapled and degummed fiber into the machine while Mills Byrom, USDA Engineer checks it at the discharge end.

Harley Morton, Fiber Specialist, right employed by the I. I. Board is shown holding carded fiber in his left hand and a silver from the machine standing in front. One of the first difficulties overcome by Morton after his work began was that of satisfactory "openings" of ramie fiber, especially the 2 1/2 inch staple used in most blends on the American cotton system.

The opening of longer fibers up to six inches is now done on cards designed for synthetics and is one of Mr. Morton's early solutions.

### Rogers Asks Congress To Return Property To Port Of Palm Beach

Congressman Paul G. Rogers introduced in the House of Representatives today a bill to provide for the conveyance of a piece of property from the Federal Government to the Port of Palm Beach District. The property involved is located at the Port of Palm Beach in

Riviera Beach, Florida. It is a small piece of land which the Port of Palm Beach gave free and clear to the Federal Government during the 1930's in order to assist the U. S. Engineers in housing personnel then working on the Okesechoe Dykes. The Port originally not only gave the land but also build a building without charge for the Federal Government's use. The property has been used continually since that time by the Government, including the housing of the U. S. Customs, until 1956 at which time the Port of Palm Beach built a new building at another location and leased a portion of it to the Federal Government for U. S. Customs and Immigration Services.

The property described in the Rogers' Bill was recently declared excess by the Federal Government, and advertised for sale.

### L - P Gas Gaining In Use In Glades

With the establishment of a service station for L-P Gas equipped to care for the converted engines, regular users of this fuel are being spotted throughout the Glades.

The economies of upkeep on engines using this fuel, as well as the power has appealed to many tractor operators, as well as those who use drainage and irrigation pumps continuously.

A distillate burning engine, converted to the use of L-P Gas does not demand as great an initial expenditure as diesel motors.

The Lake Gas Co. is active in the territory in this line promotion.

### Phenomenal Growth Of Auction Market Natural To Glades

Texas like to brag about the "bigness" of everything connected with that state, but when the Glades gets going it keeps up with the big state's claims.

It is no better indicated than in the acreage now put to sweet corn, and to the number of cat-

tle in the County now compared to just six years ago.

It is reliably estimated that there are 100,000 head of beef cattle in the county now, and 15,000 dairy cattle. Compared to the figures of 1950 that is a several hundred per cent gain.

The most important factor in this growth is the efficient selling at the Glades Livestock Market which attracts both the stocker buyer as well as the buyer for the packers.

### WESTERN

(Continued from Page 9)

cud-chewer and transmitted to her son the ability to grow lean where it belongs with selective marbelling; the packer-buyers grade him "Choice" for table use.

Mr. Harley Watson acquired him in the marts of trade, stuffed him on high protein Glades grass and tempered the acquired pounds with Glades grown ground snap corn until he was leaping to the Kunkle Meat Co. Mr. Kunkle applied the arts of his profession skillfully and ended by cutting these steaks Wednesday morning.

If these make your mouth pucker, this young man left brothers, and Mr. Kunkle craves to prepare similar steaks for you—HOME-GROWN, HOME FINISHED AND HOME HANDLED thru the processes of a GLADES abattoir.

## GLADES AGRICULTURE

IS UNMATCHED in its use of mechanization —

IS UNEQUALLED in its intelligent use of

*Fungicides - Insecticides - and Plant Foods*

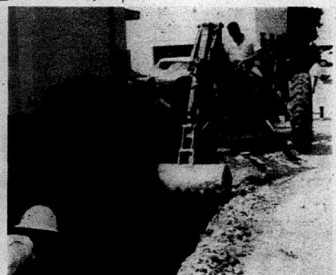

Nowhere does Nature demand as little of man in order to return bountifully to him. But, scientific and intelligent application of plant foods, insecticides and fungicides produce yields of quality crops without equal.

THE PROPER MIXING OF PLANT FOODS AND BLENDING OF PRESCRIBED FORMULAE is our business.

A MOBILE DIGGING MACHINE shown making an excavation to receive a septic tank. The machine also prepares drain fields. Concrete Products Corp. uses this machine regularly in installation work.

### Corn, Celery And Mixed Cars Makeup 75% Of Season's 35,000 Car Loading

Of the 33,000 carlot equivalents in winter vegetables moving out of the Lake Okeechobee area for the 55-56 season, sweet corn accounted for 9524 cars, celery 8311 and mixed cars 6600.

The mixed car business has been one of the greatest boosts in car movement, and trucks account for a goodly proportion of this. Many dealers in smaller communities cannot handle a full car of any one item, but can use a solid car of five to ten different vegetables. The assembling of these different vegetables by local brokers, even to securing cucumbers, squash, tomatoes and eggplant from other areas, has enabled many of the small communities of the country to enjoy "fresh Florida vegetables during the winter."

Radish are becoming a more important item in Glades shipments because of the packaging in cellophane bags ready for the housewife. She can see the red vegetable, knows it is fresh and they look good on the table as a garnish, if not eaten. Buying radish seed by the ton is a custom among many local farmers.

Rail men have testified before the ICC that trucks carry about 55 to 90% of the vegetable from Florida, and the following figures are rail cars by actual count with conversions from truck handling.

	Lake	No. High- way
Beans	1049	104 2331
Carrot-flower	1	1
Celery	3740	686 8311
Cabbage	1496	255 3324
Corn	4286	749 9524
Cukes	4	0 8
Escarole	762	12 1693
Lettuce	2	0 5
Mixed	2997	192 6600
Peppers	70	10 185
Potatoes	339	0 753
Radishes	85	0 189
Romaine	19	6 42

Total 14850 2303 33000

Corn — and "there ain't no better" — came close to bringing ten millions into the Glades last year — 9,524 cars. Harvest started on October 20th and lasted until June 20th, with a highly daily movement of 320 cars.

Celery was a regular item from November 16th until June 25th. March was the high month, with some 1600-plus cars.

Potatoes has two seasons — Dec. 14th to Feb. 1st with 484 cars, and spring crop from April 16th to May 15 with 269 cars.

## As Florida's Only Cooperative Livestock Market, and The Largest Cattle Auction Market In Florida —

Our obligations to the 112 cattlemen—members, first, and to the BEEF INDUSTRY OF THE GLADES, second, dictate our aim to see that THE GLADES has;

### Well Informed Cattlemen

We encourage State and Federal Experiment Station research, which bridges the work of scientists and the practical rancher.

### We bring in scientists and experts for conferences on Herd Improvement — Feeds And Feeding — Production, and Marketing

Our patrons may study the mid-market wire from Chicago each sale day, before the sale opens;

Our buyer-patrons are assured of registered weights in the pen. Our pen-lot selling has been adopted by leading markets in other areas;

Our non-bruising market gates are being publicized for the benefit of other markets.

THE GLADES is a new producing area; our cattlemen include a substantial proportion of successful cattlemen from our own western states as well as from the lands of the Caribbean, and South America.

### IMPETUS TO MECHANIZED

(Continued from Page 9)  
from other areas.

George Yon of US Sugar has been in the forefront of development of multiple row planters and cultivators. Mr. Yon and Mr. Couch of pump fame, collaborated in the design and construction of a ditch cleaner tractor - propelled - capable of cleaning and sloping the sides of field ditches of varying widths. Mr. Yon completed the development of his own idea of a cane loader mounted on an ordinary tractor.

Bob Edens, a local dragline man, devised an inexpensive attachment for small draglines for sloping the sides of ditches. The Wedgworth organization came up with a spiked hammer which is used successfully on small draglines in breaking the rock where canal bottoms must be below the muck.

John L. Evans greatly facilitated the water-haul of vegetables from Bitta Island through the construction of an all-steel barge powered by two butane gas engines and operated by one man. The barge carries five fully loaded trucks with ramps for drive-on loading at the Island as well as the mainland.

The Duda organization with more than 2500 acres of muck farming has specialized in time and labor saving equipment and is continuously adding to the list of revolutionary ideas and machines.

The packaging of vegetables in user-sized containers is the common practice of the radish grower, and South Bay Growers are now packaging celery hearts ready for table use in family-sized containers.

### GLADES MUCK LANDS

(Continued from Page 9)

its potentialities have warped the reason of staid business men. Since the active interest of the Governor and his Cabinet indicated by the employment of a retired textile operator, Harley G. Morton as liaison between the ramie grower and the textile industry of the country, substantial progress has been made towards beneficial use of the fiber in the domestic market. Heretofore, only the foreign market has been active in Glades fiber. The acceptance by the military of ramie for packing, webbing, uniform cloth, canvass and powder bags encourages the expectancy of having ramie declared a strategic material. Testing of end

products by private industry in most of the major textile plants of the country also points the way to an early demand beyond ability to supply.

Sod from the pastures of the Glades to the extent of more than a million dollars annually is now being hauled north, south, east and west. This is an advantageous operation in the case of many cattlemen who recoup investment without permanent injury to pastures.

### CALF RAISING

(Continued from Page 9)

According to these "cycle-observers" we are now in one of the "up" periods, and are therefore, in for a more enticing cattle market for several years than for the past three years.

Scientific study, extensive field operations by local as well as newcomer cattlemen and ingenuity indicate that the mucklands will contribute more and more to the beef supply of southeast Florida.

Duty is carrying on promptly and faithfully the affairs now before you.

Never absent from your post, never off guard, never ill-humored, never unready to work for God, — is obedience; being "faithful over a few things."

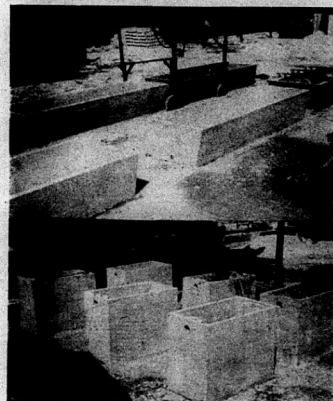

Every duty which we omit, obscures some truth which we should have known. — Ruskin. There is no mean work, save that which is sordidly selfish; no irreligious work, save that which is morally wrong; in every sphere of life the post of honor is the post of duty.

Last year, according to the Florida Beef Council, Americans consumed almost 28 billion pounds of meat. This is double the volume in 1910.

## Vacuum Precooling Operation Under way in New \$750,000 Plant

THE PLANT with a floor area of 32,000 square feet for assembling, processing and loading on to conveyors, has complementary floor area of approximately 12,000 to facilitate loading trucks and cars.

Equipment and space is so arranged that unloading time is scheduled at three minutes for farmers, and the plant has a capacity of six and a half cars per hour.

Glades farmers are cooling lettuce, escarole, romaine, Chihili, cabbage, celery and corn in commercial pack.

The use of paper cartons instead of wood is practical in the vacuum precooling and makes for easier handling for transportation and into retail markets.

The system involves the removal of a small amount of water and allows the vegetables to arrive in the market in better condition than with the old methods. The shelf life of the produce is extended also in vacuum cooling.

The building of this plant has brought the Glades leaf crops on a competitive basis with other areas, and is expected to greatly increase the market for Glades lettuce crops.

sleeping bag, and strikingly designed one-of-a-kind plates.

The brothers Harrell at Agricultural Insecticide Company just off Main Street don't just sell insecticides. Marv Harrell informed me that they also sell 95% of all celery seed sold in this area. In addition to that, they have a complete line of pipe-fittings, hose, tools, pumps, and what-have-you. Saw their new mixing machine for insecticides. It is the latest type, designed so that no poisonous dust can escape, and about twice the size of any in the Glades.

With boating at an all time high in popularity, chances are that you are a boat owner. When you're fixing up your boat, remember that Cone's Paint Store

carries a full line of Interlux boat paint — in all colors. For other painting needs, nationally recognized brands of paint are available, and the advice of a paint specialist to help you with your particular problem. Cone's has the new 6 months Continental Grip Coat floor wax which is causing such a stir. Imagine waxing your floors just once every six months!

It can attest to Bill Theisbaud's efficiency when it comes to writing up some fire and wind-storm insurance. Manager Bill of Theisbaud's Real Estate & Insurance Company, took less than three minutes to drag the proper information from me, quote rates, and say, "you're covered . . . I'll bill you." Busy men and women, please take notice! He also took time out to give me a firm handshake and say thanks.

A beautiful piece of equipment is the new G.E. Filter-Flo automatic washing machine on display at the Lake Shore Radio & Appliances. It's a luscious pink (it also comes in green, yellow, brown, and white) and it holds a full 10 lb. load of clothes. It takes your laundry "to order" by offering two washing and two spinning speeds, and three water temperatures to choose from. There's a water-saving device for partial loads. The filter is right on top — easy as pie to remove and clean. How dreamy it would be to own one — and the companion drier too!

Do you like good country style food? Jewell and Louise Bass serve just that at their Dixiana Luncheonette. Jewell told me that he buys only top quality food, and it is cooked by a chef who has had twenty-five years experience. His waitresses are all permanent residents; they're experienced, and he considers them the finest in town. The Dixiana has been in business at the same location for fifteen years. Quality food, quality service, and quality reputation is a combination that can't be beat.

If you're expecting a visit from the bank, there's something that you can't get enough of — hardly — and that's dispersa. Saw a good supply at Roy's. They're \$7 in. Birdseye, a dozen in a cellophane package. Have you noticed that plain white pillow cases are passe these days? Roy's have some clever embroidered ones with "His" and "Hers", "Mr." and "Mrs.", or a variety of floral designs in a rainbow of hues. Wonderful for gifts! Buy for now. See you next week when I'll be shopping again in Belle Glade.

## JOB and WORKER

(Continued from page one)  
large farms that now make up the greatest vegetable producing area in the entire world.

HISTORY FOR NEWCOMERS — 20 years ago most people, including business men and farmers, left this area in April and did not return until the middle of September. Preparations for the short winter season did not begin until September and by May 1, only a few die-hards were still trying to harvest or to operate stores. From May 1 until the middle of September, the Glades was dead.

TEAR AND COMPARE — Everglades farming is now a year around business and has made all other business in this area year around too. The great and continuing development of farming operations is requiring the services of more and more highly trained mechanics and technicians as farmers make increased use of harvest and pre-harvest machinery invented, developed and manufactured in the Glades. Over 2,500 unskilled agricultural workers are employed 12 months out of each year. They average \$40 a week in earnings and spend an estimated \$100,000 a week in the

Glades for a yearly total of \$1,200,000. Eight months out of the year, from August until May an additional 12,000 unskilled agricultural workers are gainfully employed in the Glades vegetable harvest and preharvest. These workers also spend their earnings in our Glades towns and communities, and Belle Glade gets the lion's share of an estimated weekly payroll of \$380,000.

TO SUM UP — It would therefore appear that this great Glades of ours owes much of its economic stability to the faith, ingenuity and perseverance of its farmers, the willingness of its agricultural workers, and the far-sightedness of its business men.

ment for Florida Power & Light Company, according to an announcement by company President and General Manager Robert H. Pitt, in Miami this week.

"Adams is particularly well qualified," Pitt said, "to fill this post, which has only recently been created so Florida Power & Light Company can better coordinate with farm interests in helping build Florida's agricultural economy."

"He brings to FP&L wide training and experience in agriculture, both from the standpoint of research and practical experience. His work at the University of Florida and his county agent experience are valuable assets."

"He will work closely with county agents, vocational agricultural teachers, soil conservation districts and other agricultural agencies."

**DON E. ADAMS**  
A native Floridian, formerly of Cross City, has been named director of agricultural development.

"Having been active in 4-H work, he hopes to take an active part in the promotion of 4-H Club activities and in aiding the advancement of the 4-H Club movement."

Adams, a native of Trenton, Florida, graduated from Chiefland high school, where he indicated an interest in vocational agriculture and joined the Future Farmers of America, serving as state president in 1943 and winning the state and tri-state public speaking contests.

As a V-12 naval officer candidate, he attended Emory University and the University of North Carolina for brief periods in 1944 and 1945.

A graduate of the University of Florida majoring in agricultural engineering, he received his Master's Degree last year. As a graduate student he was engaged in research and instruction. He has served as assistant county agent in Leon County and, since August 1953, as county agent in Duval County.

At present he is familiarizing himself with the territory served by Florida Power & Light Company. Later he plans to visit several companies in the south-east to study some of the outstanding established agricultural development programs, with a view to tailoring the one that will serve best in helping FP&L obtain its objective, it was announced.

He is a Rotarian, a member of Phi Kappa Phi, and attends the Methodist Church. Mr. and Mrs. Adams, with their two children, Donnie 5 and Bennett 20 months, plan to live in Palatka, where Mr. Adams is establishing headquarters because of its advantageous location with respect to the predominantly agricultural area served by the company.

#### HOSPITAL NOTES

**Belle Glade Memorial**  
Admission and discharges week of February 12 to 19th: Admissions — Mrs. Jack Widely, Mrs. Patricia Todd, Mr. William Cato, Mr. Doc Littleton, Mrs. Monnie Eldridge, Mrs. Margaret Cobb, Mrs. Martha Rodgers, Mr. E. R. Robertson, Mrs. Anna Miller, Mr. Salinas Baldemar, Roger Bestman, Margie Chapman, Mary Lindrose, Mrs. Beverly Gressinger, Mr. James Davis, Raymond Cunningham, Mr. Ernest Williams, Jr., Mrs. Annie Cooper, Mr. LaFaye Keller, Mrs. Shirley Davidson, Mrs. Beatrice Owens, Carol Louise Swearingen, Mrs. Jeanette Sheffield, Mrs. Marilyn Flash, Mrs. Florida Rushing, Mrs. Dorothy McDonald, Mrs. Pat Adams.

Discharges — Mr. Henry Rader, Mrs. Monnie Eldridge, Mrs. Sarah Prescott, Mrs. Margene Holly, Mrs. Martha Rodgers, Mrs. Temple Judd, Mrs. Willena Hooks, Mrs. Ira Mae Wise, Mrs. Lucille DePhamphus, Mr. William Cato, Mrs. Beverly Gressinger, Mary Lindrose, Mr. Salinas Baldemar, Mr. Elgin Johnson, Carol Swearingen, David Syfrett, Charles Syfrett.

Those remaining are: W. F. Fralick, Solon Cochran, David Syfrett, Charles Syfrett.

**Everglades Memorial Hospital**  
Patients admitted since Feb. 6, 1957 — Mrs. Quida Cramp-ton, Dale Dillow, Mrs. Bunell Strickland, Mrs. Carmen Ramirez, Mrs. Madge Meredith, Marjorie Mills.

Patients discharged since Feb. 6, 1957 — Mrs. Margate Cressy, Mrs. Julian Snyder, Mrs. Frances Weeks, Mrs. Era Stokes, Dale Dillow, Marjorie Mills, Gibson Tucker, Mrs. J. H. Barber, Lee Johnson.

Patients remaining in hospital since Feb. 6, 1957 — Mr. John Wilson, Mrs. Mary Long, Mr. Steve Golon, Mrs. Quida Cramp-ton, Mrs. Carmen Ramirez, Mrs. Madge Meredith, Mrs. Brunell Strickland.

**Local Golf News**  
Roy Kimberly our young pro reports the best play at the course on Sunday since he is here. Play was also good on Tuesday. Winners in the blind bogey tournament on Sunday were J. W. Altman, first with a net 75, won six golf balls; Jimmy Wilson, second with a 76, won four balls and Larry Tweed with a 73, won 2 balls.

Four golfers, Rapley Weeks, Edith Van Landingham, Kat Weeks and Zelma Betzner, were guests at a luncheon and 18 holes of golf at the Breakers Golf Course, recently. Mrs. C.

Burns, Mrs. A. J. Soboy, Joe Riden and Mrs. Mar-tha Curran were the hostesses.

### Boys and Girls In Service

Refreshments of banana nut cake, coffee, tea and punch were served by Mrs. Langworthy, Mrs. Alice Velma, Mrs. Lorraine McTaggart and Mrs. Marie Lee.

### Rebekahs Hold Regular Meeting

Belle Glade Rebekah Lodge No. 21 held its regular meeting Tuesday night with Mrs. Ruth Langworthy, Noble Grand presiding.

In the absence of Mrs. Ethel Jones, Vice Grand, her chair was filled by her right supporter, Marie Lee, and the chair of Mrs. Annie Clayton, who is ill was filled by past noble grand, Mrs. Gene Wenzel.

The group discussed plans for a barbecue or a bazaar sale in the near future. Announcement was made that get-well cards were sent out to the ill members, and that the next meeting on March 5 will be a pot luck supper welcoming four new members.

### S. Bell Woman's Club Elect New Officers

Mrs. Alice Keniston was elected president of the Southern Bell Woman's Club at its regular meeting held Tuesday evening in the telephone office lounge.

Other officers elected were Mrs. Charlene Schultz, treasurer, and Mrs. Ella Vein Betzner, secretary. Out going officers will be honored at a tea at the March meeting.

The group nominated Barbara Faulkner for the Harvest Queen candidate to represent the Woman's Club.

Hostesses for the evening were Mrs. Lavonne Miller, Mrs. Mary Lou Partins, Mrs. Beverly Forrest and Mrs. Arlene Batchelor. There were 15 members present.

**For Vegetable Growers, For Leveling Land, Production of Fine Seed Beds and Efficient Irrigation**

Here is a machine that helps Vegetable Growers obtain smooth, level land, ideal seed beds and efficient irrigation. In the same operation the Everman levels land, prepares a firm, well packed seed bed which is ideal for precision planting, close cultivation, and more efficient operation of mechanical harvesters. Makes possible planting of costly seed at precisely the right depth to insure full germination and superior stands with resulting high yields.

**For Filling Pot Holes**  
And Improving Drainage  
With your own tractor and an Everman you can move dirt, fill

swales and pot holes, build grass waterways, improve drainage of your fields, level and smooth surface and prepare well packed seed beds. All this work is done with the same machine which works fast and efficiently.

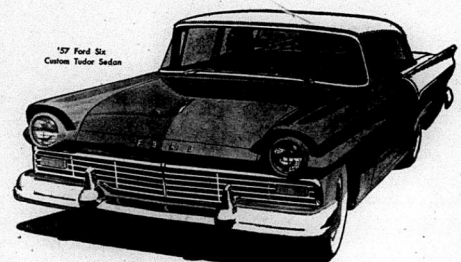

### For Cattlemen in Developing Better Permanent Pastures

The Everman is being used by cattlemen throughout the nation in preparing ground before planting permanent pastures. The Everman finishes off land to a smooth and level, producing a fine seed bed that gives better stands with less high priced seed and fertilizers. Makes land easy to irrigate, eliminating the high spots and low spots, saving water, time and labor, giving more production from each acre. Come in today for full details.

### Averill Conducts Mission Services

Grant E. Averill, lay-leader of St. John the Apostle Episcopal Church, Belle Glade, conducted Morning Prayer and read the sermon last Sunday for the newly formed Episcopalian group in Jupiter, which meets in the community house of the Sun-Sands Trailer Park. Hitherto services have been at night. From now there will be regular service each Sunday at 11 a.m.

The work there has been largely the result of exploration made by the Hon. E. S. Roberts of Belle Glade. The Episcopal churches at West Palm Beach, Ft. Pierce, and Belle Glade are taking turns supplying clergymen and lay-readers while the mission is getting on its feet.

### Mrs. Huber Is Guest Speaker At WSSC Meet

"Duties of Officers of Women's Society of Christian Service" was the topic of the guest speaker, Mrs. E. S. Huber, Ft. Pierce, Secretary of Promotion, at the regular meeting of the U.S.C.S. The program was in charge of the Star Circle. Mrs. John Schoenfeld gave the devotional. During the business session presided over by Mrs. Robert Creech, Jr., announcement was made of the district conference to be held March 27 at the church.

Mrs. J. A. Ponder, Mrs. Clarence Kidder and Mrs. Victoria Boots were elected on the nominating committee, a slate of officers to be presented at the next meeting.

Mrs. E. C. Mapp local secretary of promotion welcomed the 10 new members of the church. The welcoming service was on "Candles of Love" with Mrs. George Stanley, Mrs. James Wier and Mrs. Donald Ray, new members participating.

Refreshments were served by the members of the Star Circle.

### C & M Mission Raises \$500 In Pledges For Foreign Missions

The highlight of the First Annual Missionary Convention of the Christian and Missionary Alliance held here Feb. 15-16-17 was pledges amounting to \$500 which were taken up for foreign missions.

There was a large attendance at the Saturday and Sunday night meetings. Rev. T. G. Mangham, southern district superintendent spoke on the subject "Are The Heavens Open?" Sunday evening the choir of the C. & M. Church in West Palm Beach presented a special musical program on Saturday night.

Miss Fern Gerrie returned missionary from India also gave a talk and demonstrated the different type casts in India with an interesting exhibition of dolls.

### CHURCH OF CHRIST, SCIENTIST

How spiritual understanding of God as divine Mind opens the way to greater abilities and opportunities will be brought out at Christian Science services Sunday.

Reading in the Lesson-Sermon, entitled "Mind" will include the following from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "A knowledge of the Science of being develops the latent abilities and possibilities of man. It extends

the atmosphere of thought, giving mortals access to broader and higher realms; it raises the thinker into his native air of light and perspicacity."

The Golden Text is from Romans (12:2): "Be not conformed to this world, but be transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

### Revival Services At First Baptist Are Well Attended

Revival services this week at the First Baptist Church, Belle Glade with Dr. John Maguire preaching has had a large attendance this week. Services will continue through Sunday 24th. Everyone is invited to come out to hear this outstanding evangelist and the musical program directed by Wendell Carpenter.

An announcement was made that the men of the church are especially invited to the Brotherhood breakfast Sunday morning at the Maguire speaking. The youth of the church are invited to a cover-dish supper on Saturday night at 6:15 p.m. and will remain for the evening service which will be directed to the youth.

The Training Union under the direction of Miss Lora Geis is promoting "George Washington Attendance" on Sunday night. Those who are planning to attend are asked to sign their names on an outline of George Washington and these are being placed in the shape of a circle.

Wendell Carpenter will attend the Sunday School Convention on the First Baptist Church of Daytona Beach on Monday, Tuesday and Wednesday of next week. The convention is under the direction of C. F. Barry, State Sunday School director, and outstanding leaders of all age groups will be present.

### Members Plan Supper To Welcome Pastor

Members of St. Philip's Catholic Church will have a pot luck supper at the Municipal Country Club Feb. 23, to meet and welcome the new pastor, Father Cronin was the announcement made by Father John Clarence Petrie.

### Responsibility's (a lie) the string we can only see the middle of.

Both ends are out of sight.

### Read Deuteronomy 14:13-22

Give him that asketh thee, and from him that would borrow of thee turn not thou away. Matthew 5:42)

A man asked a friend for a sum of money. The request was granted. Shortly after, he was asked for more, which was also given. This was repeated several times. The man, who was as wise as he was kind, finally refused additional requests. He knew that some giving helps, some hurts. So he gave something much better—he aroused his friend's ambition and self-reliance.

Giving means more than bestowing material gifts and money. It means giving cheer, kindness, joy. It means instilling hope and courage by patience and love. It means bringing sunshine and sweetness into sad lives. It means cheerfulness and fortitude in adversity, gentle answers to harsh words, overcoming dislike, pride, prejudice, inspiring people by practice than by professing. Cheerful giving is cheerful living and not always easy, for it means subduing all selfishness.

Loving Father, we can give Thee loving service, especially to those who know Thee not. Help us to give freely, gladly, both materially and spiritually, and thus follow Christ's example. In Him named Amen.

### THOUGHT FOR THE DAY

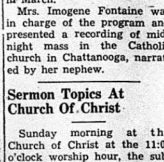

God, who gives me my talents and possessions, holds me responsible for their proper use.

Edna Deszar Wells (New York)

### EVERY DIME COUNTS...

THIS FIGHT IS NOT OVER... IT WILL TAKE A LOT MORE TO FINISH OFF POLIO.

BOB DIMSIE, National Sports Chairman for the 1957 March of Dimes, has appealed to sports editors, promoters and athletic directors for their help in the impending victory over polio and urges local March of Dimes campaign directors to contact and work with them during the drive.

### Home Mission School Is In Progress At Presbyterian Church

The General meeting of the Women of the Everglades Presbyterian Church was held at the church Tuesday evening at 8 p.m.

Mrs. W. K. Whitlock presided in the absence of Mrs. Lois Ruff, president.

The meeting was opened with a Devotional given by Mrs. Ura Felsing, followed by a prayer by Mrs. J. Leighton Scott. Mrs. Whitlock announced that the Everglades Presbyterian Church would be open on Feb. 26th from 4 till 4:30 p.m. during the Week of Prayer and Self-Denial for all who wish to enter for prayer and silent meditation.

Mrs. J. Leighton Scott gave a report on the Women's District meeting held on Feb. 6th at Hollywood, Fla.

The Everglades Presbyterian Church has a Home Mission School in progress. One class was held Sunday evening, Feb. 17 and one will be held March 3rd under the leadership of Mrs. James Fraser, Mrs. Ura Felsing and Mrs. Sam Crisman were the speakers for the evening of Feb. 17th.

Also scheduled for the Mission session is the film "With One Accord" sponsored by the Men of the Church to be shown on Tuesday evening, Feb. 26th at 7:30 p.m.

The business meeting was followed by the program in charge of Mrs. J. L. Price on "Developing a Better Community" and Mrs. Robert Roadman, Mrs. Myron E. Ludlow and Mrs. James Franer taking part. Hostesses for the social hour were Mrs. Basil Cook and Mrs. Hob Ellis.

### Rev. Henry Receives New Appointment

Rev. Fred E. Henry, of Stratford, Pa., a member of the staff of the Devereux Schools, Devons, Pa., since Sept. 1, 1956 as chaplain has recently been appointed to the position of Assistant director by Miss Helen I. Devereux, founder and director.

Dr. Henry is the husband of the former Louise Hollingsworth, daughter of Mr. and Mrs. F. E. Hollingsworth, 233 S. W. Ave. B, Belle Glade, who is now visiting her parents with her daughter, Paula Jean 3. Dr. Henry and son, Fred, 8 will join the family here on March 1 for a week. The Henry's daughter, Joanne 6 is a student at the Devereux Schools.

Dr. Henry is responsible for emphasizing the spiritual side of the Devereux program, by instituting church and church school services in all units. In his new duties he will also promote community and human relations. Rev. Henry received his S.T.D. degree from the Commonwealth University of Los Angeles, Calif. in Dec. 1956 and has studied at Temple University School of Theology and Department of Psychiatry under Dr. Spurgeon English, Hahnemann Medical College, Philadelphia and Florida Southern Col-

### THE CHURCH OF CHRIST invites

You to consider the following question:

WHAT CHURCH SHOULD I JOIN?

1. None. You CANNOT "join" Christ's church.
2. The same process that makes one a Christian also makes him a member of Christ's church. (Acts 2:41).
3. Let Christ ADD you to His church. (Acts 2:47) after you have BELIEVED in Him. REPEAT of all sins, CONFESS faith in Him, and be BAPTIZED into Him.
4. There is only ONE New Testament church. (Matt. 16:18).

(1) There is one Lord, one Faith and one Baptism. (Eph. 4:5).

(2) There is one Body. (Eph. 4:4).

(3) The church is His Body. (Eph. 1:22, 23, Col. 1:18).

(4) Therefore, there is only ONE true New Testament church.

Christ built only one church (Matt. 16:18) and expects all believers in Him to be in it. He bought the church with His blood (Acts 20:28). He is the bridegroom, the church is the bride. (Rom. 7:1-4).

### Here! New Chevrolet Task-Force 57 Trucks

Wave, Alice Larrick, formerly of Lake Harbor, will be present at Clewiston High School for a talk on Armed Forces Day, Feb. 26.

Wave, Alice Larrick, a Navy career woman made the rating of 1/c Photographer's mate. She will be in Belle Glade after 2:30 p.m. on the same date at the Barber Building. Young ladies interested in the Navy Wave's are asked to stop in and see Miss Larrick and call or answer any questions. For further information write, call or contact Chief B. A. Werner, P. O. Building, West Palm Beach, phone TE 2-2236.

### Additional Circuit Judge Sought By Bar

County Commissioners Monday agreed to pay \$50 per cent of the cost of a county-wide census check as requested in a resolution presented by the County Bar Association.

Survey purpose is to ascertain the need for a fourth circuit judge for this county, according to Paul Potter, Bar representative. He told the board the Bar will then offer a local law through a legislative group asking the Governor to appoint another circuit judge. The Broward County Commission is underwriting a similar survey, he said.

Commissioner Paul Rardin emphasized that all courtroom facilities in the courthouse will eventually be needed by the circuit court and urged that the court of criminal record be moved in its entirety to the Datura Street courthouse.

### Measurement Requests Under Soil Bank Prog.

The County ASC office will provide surveys for measuring fields placed under the Acreage Reserve and the Conservation Reserve of the Soil Bank Program and Allotment Corps. This is for the purpose of providing the farmer with the measured acreage he plans to put into the program prior to accepting payment under either program and to enable rice and peanut growers to harvest within their allotments. At the same time the field will be staked showing corners of the field so designated.

The fee for premeasurement of rice acreage placed under the Acreage Reserve will be \$10.00 basic charge plus \$1.00 per acre for acreage in excess of 80.0 acres.

The fee for premeasurement of peanuts under the Allotment Crops will be \$10.00 basic charge plus \$1.00 per acre for acreage in excess of 80.0 acres.

The fee for premeasurement of rice acreage placed under the Conservation Reserve Program will be \$10.00 basic charge plus \$1.00 per acre for acreage in excess of 80.0 acres.

The closing dates for accepting premeasurement requests at the county ASC office are as follows: Peanuts — March 15, 1957. Rice — July 1, 1957. Requests may be made at the ASC office, Sanders Building, Belle Glade, Fla.
